

## **Beginning Precious Metal Clay Class**

*Make your own beautiful, pure silver pendant with  
a Cubic Zirconium setting!*

Course Description: Students will learn the history and uses of the different types of PMC on the market as well as the different ways these products are used and fired.

Students will learn and practice making a contemporary bezel setting to secure a cubic zirconium into a patterned pendant body with a PMC bail. Everyone will go home with a great looking pendant!

All of the techniques taught in this workshop demonstrate how to make a PMC piece that looks professionally finished. Each piece will be kiln fired and finished using hand techniques and the store's vibratory tumbler. Various finishing techniques and patina options will be discussed.
